Reduction of military budgets

Objective information on military matters, including transparency of military expenditures

Report of the Secretary-General

Summary

The present report contains information received from Member States on their military expenditures for the latest fiscal year for which data are available. The Secretary-General has, to date, received reports from 67 Governments. The report also describes activities in which the Secretariat was engaged to enhance familiarity with and encourage greater participation in the United Nations standardized instrument for reporting military expenditures.

I. Introduction

1. The General Assembly, in its resolution 58/28, inter alia, called upon all Member States to report annually, by 30 April, to the Secretary-General their military expenditures for the latest fiscal year for which data were available, using, preferably and to the extent possible, the reporting instrument as recommended in its resolution 35/142 B or, as appropriate, any other format developed in conjunction with similar reporting on military expenditures to other international or regional organizations, and encouraged Member States that had no information to submit nil returns.

2. By operative paragraphs 5 (b), (f) and (g) of its resolution 58/28, the General Assembly requested the Secretary-General, within available resources, to circulate annually the reports on military expenditures as received from Member States; to promote international and regional symposia and training seminars to explain the purpose of the United Nations system for the standardized reporting of military expenditures and to give relevant technical instructions; and to report on experiences gained during such symposia and training seminars.

3. On 13 February 2004, a note verbale was sent to Member States requesting them to submit their reports no later than 30 April 2004. The replies received are reproduced in section III below. Any additional replies received from Member States will be issued as addenda to the present report.

II. Action taken

4. Pursuant to operative paragraph 5 (f) of General Assembly resolution 58/28 and within existing resources, the Secretariat engaged in activities to enhance familiarity with and encourage greater participation in the United Nations standardized instrument for reporting military expenditures.

5. On 23 March, the Department for Disarmament Affairs discussed the progress of the instrument for reporting military expenditures and the United Nations Register of Conventional Arms in a plenary session of the Committee on Hemispheric Security of the Organization of American States (OAS) at OAS Headquarters in Washington, D.C. From 18 to 20 May, the Department organized a subregional workshop with the financial assistance of Sweden and the United Kingdom in Nairobi, covering the Horn of Africa and the Great Lakes region. At that workshop, which was the first of its kind to be held in the Horn of Africa and the Great Lakes region, the technical operation and procedures of the United Nations Register of Conventional Arms and Instrument for Reporting Military Expenditures were discussed in detail.

III. Replies received from Governments

Explanatory note

6. To date, the Secretary-General has received reports from 67 Governments. In most cases, Governments have reported the figures in the tables presented below on the basis of the United Nations standardized instrument for reporting military expenditures. For analytical purposes, the information on military expenditures

received has been computerized, with minor adjustments, to conform to standard statistical practices.

7. The originals of the replies from States are available through the Department for Disarmament Affairs. The annual reports and other relevant information on the standardized instrument for reporting military expenditures are available electronically on the Department's web site at http://disarmament.un.org/cab/milex.html.

Remarks:

1. Besides defence expenditures, for the financing of military pensions it is envisaged 8.357.401 thousands of dinars.
2. Balance between the planned military expenditures of the State Union of Serbia and Montenegro in 2003 and the effective spending on defence (40.586.205-34.661.175) amounting to 5.925.030 thousands of dinars is the consequence of a deficit in the financing of defence of the State Union of Serbia and Montenegro in 2003.
